PRESIDENT'S MESSAGE FOR IAAF SCORING TABLES

I warmly welcome the 2017 edition of the IAAF Scoring Tables for Outdoor Events.

Scoring tables which have a history in Athletics dating back even further than the IAAF's own creation in 1912 are an invaluable reference tool for all those who work in and closely follow our sport.

Based upon mathematical principles they have been regularly adapted over the course of a century and more to meet the demands of our constantly changing sport, taking into account mankind's physical and athletic development.

While these tables can never be a definitive measurement of the level of performance considering the differing opinions among sports statisticians concerning their basis and method of construction, they do allow us to consistently measure and compare athletes and their performances across the rich variety of event disciplines.

On behalf of the global athletics family I applaud the dedicated and conscientious work of the Spiriev family who have authored this book since 1982, the late Dr. Bojidar Spiriev and, in more recent years, his equally eminent son Attila.

Sebastian Coe
IAAF President

MESSAGE DU PRÉSIDENT À PROPOS DES TABLES DE COTATION DE L'IAAF

Je salue chaleureusement la publication de l'édition 2017 des Tables de cotation des épreuves en plein air de l'IAAF.

Les tables de cotation, dont les liens avec l'athlétisme remontent encore plus loin que la création proprement dite de l'IAAF, en 1912, constituent un outil de référence précieux pour tous ceux qui œuvrent dans notre sport et le suivent de près.

Basées sur des formules mathématiques, elles ont été régulièrement adaptées durant plus d'un siècle pour répondre aux exigences de notre sport en perpétuelle évolution, en prenant en compte le développement physique et athlétique du genre humain.

Si ces tables ne peuvent jamais constituer une mesure définitive du niveau de performance, compte tenu des différentes opinions émanant des statisticiens sportifs par rapport à leur base et à leur mode d'élaboration, elles nous permettent cependant de mesurer et de comparer de façon cohérente des athlètes et leurs performances sur un large spectre de disciplines.

Au nom de la famille de l'athlétisme mondial, je salue le travail acharné et exhaustif de la famille Spiriev qui est à l'origine de cet ouvrage depuis 1982, sous l'impulsion d'abord du regretté Dr Bojidar Spiriev, et, plus récemment, de son fils Attila, tout aussi qualifié.

Sebastian Coe
Président de l'IAAF

AUTHORS' INTRODUCTION

The Scoring Tables of Athletics are based on exact statistical data and according to the following principles:
The scores in the tables of different events cover equivalent performances. Therefore, the tables can be used to compare results achieved in different athletic events.

Due to obvious biological differences, it is not proposed to fully compare men's and women's performances. Thus, the system contains scoring tables for men's and women's events respectively.

The tables are progressive, which means that the same improvement of results at higher levels leads to a greater increase in the scores. For example, to improve from 8.30m to 8.60m in the Long Jump is obviously more difficult than to improve from 6.30m to 6.60m. The degree of progressivity in the running (walking, hurdling) events is different than in the jumping and in the throwing events due to biomechanical reasons.

The **IAAF Scoring Tables of Athletics** can be used for multiple purposes, including:

- **To determine the Result Score of a performance for the World Rankings;**
- **To evaluate the competitions;**
- **To establish the best athlete award in a specific competition;**
- **To produce national, club, school and other rankings;**
- **To use it in championships of clubs, etc.**

To make comparisons easier, events are edited as follows:

- **Sprints, Hurdles and Relays**
- **Middle Distances**
- **Long Distances and Steeplechase**
- **Road Running**
- **Race Walking**
- **Jumping and Throwing events and Decathlon/Heptathlon**

Should a performance fall between two results on the tables the lower score shall be considered.

In view of tradition and in effort to keep things simple, the Scoring Tables include only whole number scores for expressing performances.

Hand times:

- **Sprints and Hurdles up to 200m: add 0,24 sec**
- **300m, 400m and 400m Hurdles: add 0,14 sec**

The tables are being continuously reviewed. When noted, discrepancies shall be removed and, if necessary, new events shall be added so that the Scoring Tables are always accurate and up to date.

Dr. Bojidar Spiriev
(1932-2010)

The 2017 edition of the IAAF Scoring Tables of Athletics contains 91 athletic events (46 for men and 45 for women).

The yearly statistical data were analysed every year since the last edition of the IAAF Scoring Tables, including the results of 2014, 2015 and 2016. As it is natural after a 3-year period, certain results and scores became disproportionate, corrections of different volumes had to be made with creating new formulas in the following events:

- **Men's 3km Race Walk, 5km Race Walk, 10km Race Walk, 20km Race Walk, 30km Race Walk, 35km Race Walk, Hammer Throw, Javelin Throw, Decathlon**
- **Women's 4x100m, 800m, 3km Race Walk, 5km Race Walk, 10km Race Walk, 20km Race Walk, 30km Race Walk, 50km Race Walk, High Jump, Pole Vault, Long Jump, Triple Jump, Shot Put, Javelin Throw**

I would like to thank András Szabó, Project Manager of All-Athletics.com, for his assistance in preparing this revised edition of Dr. Bojidar Spiriev's IAAF Scoring Tables of Athletics.

Attila Spiriev

INTRODUCTION DES AUTEURS

Les Tables de Cotation d'Athlétisme sont basées sur des données statistiques exactes, établies selon les principes suivants :
Les points attribués aux différentes épreuves dans les tables couvrent des performances équivalentes. Ces tables peuvent donc être utilisées pour comparer les résultats obtenus dans différentes épreuves d'athlétisme.

En raison de différences physiologiques évidentes, il n'est pas possible de comparer totalement les performances des hommes et celles des femmes. Le système comprend donc des tables de cotation séparées pour les épreuves masculines et féminines.

Les tables sont progressives, ce qui signifie qu'une même amélioration des résultats au plus haut niveau conduit à une augmentation plus importante des points. À titre d'exemple, passer de 8,30m à 8,60m au saut en longueur masculin est évidemment plus difficile à réaliser que passer de 6,30m à 6,60m. Le degré de progressivité dans les courses (y compris la marche et les haies) diffère de celui observé dans les sauts et les lancers pour des raisons biomécaniques.

Les **Tables de Cotation d'Athlétisme de l'IAAF** peuvent être utilisées à des fins multiples :

- **Déterminer la valeur en points d'une performance pour les classements mondiaux ;**
- **Évaluer les compétitions ;**
- **Récompenser le meilleur athlète dans une compétition donnée ;**
- **Établir des classements nationaux, scolaires ou de clubs, et bien d'autres ;**
- **Les utiliser pour des championnats interclubs, etc.**

Pour faciliter les comparaisons, les épreuves sont groupées comme suit :

- **Sprints, haies et relais**
- **Courses de demi-fond**
- **Courses de fond et steeple**
- **Courses sur route**
- **Marche**
- **Sauts et lancers, et décathlon / heptathlon**

Si une performance se situe entre deux valeurs affichées dans les tables, la valeur inférieure devra être prise en compte.

Conformément à la tradition et dans un souci de simplification, les tables de cotation expriment les performances uniquement en nombres entiers.

Temps manuels :

- **Sprints et haies jusqu'à 200m : ajouter 0"24**
- **300m, 400m et 400m haies : ajouter 0"14**

Les tables sont constamment réexaminées. Si des écarts sont observés, ils seront gommés et, si nécessaire, de nouvelles épreuves seront ajoutées afin que les tables de cotation demeurent précises et à jour.

Dr Bojidar Spiriev
(1932-2010)

L'édition 2017 des Tables de Cotation d'Athlétisme de l'IAAF comprend 91 épreuves (46 chez les hommes et 45 chez les femmes).

Les données statistiques annuelles ont été analysées chaque année depuis la dernière édition des tables de cotation d'athlétisme de l'IAAF, y compris les résultats de 2014, 2015 et 2016. Comme cela est logique après une période de trois ans, certaines performances et valeurs en points étant devenues disproportionnées, il a fallu apporter des corrections à différents volumes en élaborant de nouvelles formules pour les épreuves suivantes :

- **Hommes : 3km marche, 5km marche, 10km marche, 20km marche, 30km marche, 35km marche, lancer du marteau, lancer du javelot, décathlon**
- **Femmes : 4 x 100m, 800m, 3km marche, 5km marche, 10km marche, 20km marche, 30km marche, 50km marche, saut en hauteur, saut à la perche, saut en longueur, triple saut, lancer du poids, lancer du javelot**

Enfin, je tiens à remercier András Szabó, directeur de projet de All-Athletics.com, qui m'a aidé à préparer cette édition révisée des Tables de cotation d'athlétisme de l'IAAF du Dr Bojidar Spiriev.
